How do you feel ACP would benefit from your involvement on the National Board of Directors?

25+ years as a leading advocate of the importance of organizational resilience being treated as an enterprise programmatic sustainable program. Extensive familiarity with players in the public & private sectors. Proven leadership skill in our industry. The one who initiated and brought to fruition the creation of the Business Continuity Maturity Model.

For the past 2 years, I have led the transition of National Board to its current committee structure and focus on engaging ACP Members to volunteer and participate in the work of the National Board.

Additional comments or notes.

These are challenging times for our industry as we find ourselves caught between the significant rise in variety and intensity of disruptive events and ever-present demands of organizational leadership focus on controlling fixed/variable costs. The Association of Continuity Professionals is unique as the only enterprise resilience professional association. It would be an honor to continue to provide whatever assistance I could to the advancement of the important work of ACP National, all of the Chapters, and its Members.
